Adrian Carballo

Product Designer · B2B, AI and IoT

wacarballo94@gmail.com ekko94.github.io/portfolio linkedin.com/in/adrian-carballo-guilarte
Jacksonville, FL

PROFILE

Product Designer with a computer engineering background, focused on B2B, AI and IoT platforms. I turn complex workflows and data into clear, usable products, working closely with product, engineering and stakeholders. I'm curious about how people think and act when they use technology, and I design empathetic solutions from that understanding. Adaptable, with a love of learning.

Selected work: Sorbot, an AI assistant inside the workflow, and Vision, a node canvas for configuring computer vision.

EXPERIENCE

May 2023 – Jan 2026

Sorba.ai

Product Designer · UX Designer

- Designed and evolved AI and machine learning platforms, focusing on complex workflows, system thinking and usability.
- Partnered with product, engineering and stakeholders to turn complex requirements into scalable, intuitive solutions.
- Used AI tools to support smarter, more efficient user experiences and applied user-centered, problem-solving methods to improve product flows.
- Ran UX research and UI/UX design for the redesign of Sorba University: new course views, improved interactions and courses organized into chapters.

Jan 2021 – May 2024

Interamplify

UX Designer

- Led the UX/UI design of a self-service SEO system, so users could configure SEO settings by goal and manage content, keywords and optimizations without relying on support.
- Worked with stakeholders on requirements, feature prioritization and iterating on user feedback.
- Designed a task management system to organize, prioritize and track SEO tasks, plus SEO dashboards and data visualizations to support decisions.
- Created reusable UI components and visual elements for consistency and scalability across the platform.

Dec 2022 – Apr 2023

QA-BIT

UX Designer

- Contributed to the ideation, definition and design of user-centered digital products, from concept to final UI.
- Collaborated with cross-functional teams to align user needs, business goals and technical constraints.
- Created accessible experiences for freelancers and small business owners, applying usability and accessibility best practices, and iterated on feedback from stakeholders.

Jun 2022 – Jan 2023

Guajiritos

UX Designer · Graphic Designer

- Designed social media content, vouchers and visual assets for marketing and retail use.
- Worked on store design concepts and promotional materials, combining UX principles with strong visual communication.
- Kept visual and brand consistency across digital and physical touchpoints.
